★ Events will be live streamed to limit the need for spectators. We would like to please ask that each dancer is accompanied by no more than one (1) spectator. Those in high risk categories are encouraged not to attend.

★ Signs will be posted to encourage social distancing and proper hygiene. Hand sanitizer stations will be provided throughout the venue.

★ Masks are recommended for all spectators.

★ Whenever possible studios will compete one at a time and can leave immediately following their performance, therefore dressing room congestion shouldn’t be an issue. Additional cleaning will be done throughout the day.

★ Each studio will be assigned specific time slots for all of their dancers to perform their routines.

★ The schedules will be planned deliberately to minimize the number of studios in the building at one time. Final schedule will be determined by studio size. If more than one studio is in the building at the same time, seating in the auditorium will be divided by studio.

★ There will be no scoring deductions for costuming if masks or gloves are used or if a studio chooses not to dance in costume. If utilizing the Dressing Rooms, please limit the number of people accompanying the dancers. Dancers should arrive in full hair makeup and in their first costume, ready to perform. This will limit their time in the dressing room.

★ Only the performers and one studio representative will be allowed in the backstage area for each performance.

★ In most areas, awards will be live streamed without dancers on stage and awards will be delivered to the studios.

★ Competition staff will have temperatures taken and a wellness check-in every day. Staff will also wear masks.

★ Based on location, additional requirements and protocols will be sent to the studio with the final schedule prior to the competition.

THE FOLLOWING PROTOCOLS MAY BE REQUIRED BY CERTAIN VENUES

★ Checking temperatures with infra-red thermometers & limiting spectator attendance. Any person with a temperature of 100.4°F (38°C) or above will NOT be allowed to enter the event.

★ No dressing rooms

★ No props that cannot be carried on by the performers
